

Government statistics indicate that at least 20% of energy supplied to business is wasted

## Smarter Utility Management with Chamber Utilities™

You get many benefits from your Chamber membership. Getting their help to reduce your costs and increase profits is vital. Effective use of your utilities is an integral component to the achievement of your goals.

Yet U.K. businesses waste millions of pounds every year through inexperience, lack of knowledge or awareness of efficient utility management. However, there is a remedy...

You can maximise your efficiency with a comprehensive **Utility Review** by Chamber approved specialists. **What's more, this service comes as part of your annual membership fees.**

### FREE Service

Developed in conjunction with Chamber member Utility Auditing Ltd, you will get a complete appraisal of your current utility requirements. All you have to do is provide us with readily available information.

**Chamber Utilities™** will then conduct a thorough analysis and advise you where savings are possible.

### Impartial Advice

**Chamber Utilities™** is totally impartial. They will help you to minimise energy waste by a combination of efficient energy purchasing, good housekeeping procedures, industry best practice and proven energy-saving technologies.

In addition they can provide design consultancy and project manage new or upgraded supplies, as well as assistance with mitigating the Climate Change Levy - plus much more.

- FREE cost analysis
- Supply contracts managed
- New supplies & upgrades
